Mobile No.:+2 01276644631

Address: Haram, Giza, Egypt.

E-mail: [faridfaiz71@gmail.com](mailto:faridfaiz71@gmail.com)

## Professional Summary

---

Junior Full-Stack Developer with a strong backend foundation in Django and ASP.NET Core, and hands-on experience building real-world web applications from scratch. Skilled in designing RESTful APIs, implementing authentication and role-based access control, and developing responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript. Currently working as an Internal Web Developer alongside IT support responsibilities, seeking to grow within a professional and collaborative development team.

## Education

---

**Helwan University – Faculty of Computers and Artificial Intelligence**

**Bachelor of Software Engineering, 2023**

**Grade: Very Good**

## Experience

---

**\* Internal Web Developer & IT Helpdesk Specialist / Akhnaton for construction and real state development** Feb 2024 – Present

- Developed and maintained an internal full-stack web application using Django, HTML, CSS, and JavaScript to manage and display company projects.
- Implemented admin authentication and role-based access control for managing projects and images (CRUD).
- Designed database models and handled image uploads and relationships between entities.
- Provided on-site and remote IT support for engineers across construction sites, ensuring minimal downtime and smooth operations.

**\* .Net Developer at CIA Micro Systems** may 2022 – Oct 2022

- Developed and maintained a company web application using ASP.NET Core (.NET 5, 6).
- Participated in upgrading the system to .NET 6, improving performance and maintainability.
- Implemented role-based access control and user authorization.
- Debugged and enhanced existing features to ensure system stability.

## Internships & Training

---

- **Web Development Intern** – Eva Akhnaton ATR (Dec 2023)
  - Contributed to web development tasks and backend logic.
- **Angular Training** – ITI (Remote) (Jan 2023)
  - Hands-on training in Angular fundamentals and frontend development.
- **ASP.NET Core MVC Training** – ITI (Remote) (Mar 2022)
  - Built MVC-based web applications from scratch.
- **Back-End Development Intern** – BZNS Builder (Jul 2021 – Sep 2021)
  - Worked on backend logic and database-driven applications.

## Technical Skills

---

- **Backend:**  
Python, Django, ASP.NET Core (5,6,7), REST APIs, Entity Framework, LINQ, SQL, Redis
- **Frontend:**  
Vuejs, HTML, CSS, Bootstrap, MDB, Tailwind CSS, JavaScript, Angular
- **Tools & Concepts:**  
Git, GitHub, MVC, Authentication & Authorization, Role-Based Access Control
- **IT & Infrastructure:**  
Remote Support Tools, Hardware Setup, Network Printers, VPN

## Projects

---

- \* **Educational Management Platform – Django & Vue**
  - Designed and developed a full-stack web application using Django REST Framework and Vue.js.
  - Built secure RESTful APIs to manage users, content, and administrative operations.
  - Implemented authentication, permissions, and role-based access control.
  - Integrated frontend Vue.js application with backend APIs.
  - Designed scalable database models to support real-world usage.
- \* **Akhnatonco – Internal Full-Stack System (Django)**
  - Designed and developed a full-stack internal web application using Django.
  - Implemented authentication, admin dashboard, CRUD operations, and image handling.
  - Built relational database models to manage projects and associated images.
- \* **Real-Time Chat Application – Django Channels**
  - Developed a real-time chat application using Django Channels and WebSockets
  - Implemented chat rooms, user groups, message timestamps, and live updates.
- \* **Skinet – Full-Stack E-Commerce Platform**
  - Full-stack e-commerce application built with ASP.NET Core 7 and Angular.
  - Applied clean architecture principles including Repository and Specification patterns.
  - Integrated Redis caching to enhance performance.
- \* **Graduation Project – Educational Platform**
  - Developed a platform targeting children with learning disabilities such as dyslexia and dyscalculia.
  - Built using ASP.NET 7, Angular, and Unity-based interactive games.
- \* **SignalR Real-Time System**
  - Built a real-time web application featuring chat rooms, notifications, user groups, and order status updates using SignalR.
